

K - 8 Math Adoption Committee - Minutes

October 2, 2023

LEC Boardroom

4pm-5pm

Welcome and Debrief (4:00pm)

Dr. Tracy Watkins and Sarah Zembruski welcomed and discussed the prior work in subcommittees (K-5 and 6-8).

Review the major math clusters

The subcommittees discussed why the major math clusters were an important consideration when vetting resources.

Review of the 3-8 Math AASA Blueprint and Item Specifications

The subcommittee reviewed and discussed the AASA Blueprint and determined what students must master in terms of proficiency. Next, the committees looked at the Item Specifications to become familiar with what proficiency means. Finally, the committees practiced vetting a lesson from Eureka Math and discussed alignment and further analyzed the program using guiding questions.

Establishing Criteria for Math Program Selections

The subcommittees reviewed the proposed math analysis questions and determined if/how the programs would be scored. The table groups worked together to add additional criteria to consider.

Conclusion

The committee concluded the meeting by reviewing upcoming meetings and the follow up task.

The committee meeting concluded at **5:10pm**

Respectfully submitted by Dr. Tracy Watkins
