

K - 8 Math Adoption Committee - Minutes

November 30, 2023

LEC Board Room

4pm-5pm

Welcome and debrief (4:06pm)

Dr. Tracy Watkins welcomed the committee and reviewed the final ratings for the top three programs (Eureka, Into Math and Illustrative). The committee discussed the “pros” of each of the top programs.

Table Task

The grade level tables were then asked to preview and plan a lesson from three different programs. The groups were assigned to look at a lesson that was best aligned to a math major cluster. The team then discussed guiding questions that supported the lesson plan focus.

Conclusion

The committee concluded the meeting with a reminder of the upcoming meetings and tasks for the next weeks to include ranking the three top programs by choosing the top two. The committee then scheduled an upcoming meeting for 12/13/23 from 4pm - 5pm.

The committee meeting concluded at **4:52pm**

Respectfully submitted by Dr. Tracy Watkins
